PROFILE

Computer science student with experience in C, Python, embedded systems, AI, and Unity development. Strong interest in real-world software engineering, systems programming, and technical problem solving.

SKILLS

- C, Python, Java, C#, SQL
- Version Control (Git, GitHub)
- Database & OOP Design
- AI / ML
- Embedded & Linux
- Async & Multithreading

EDUCATION

COMPUTER ENGINEERING, M.SC. (AI)
Halmstad Högskola 2021 - 2026

- **EXCHANGE STUDENT (AI)**
Taiwan Tech 2025 - 2025

DATABASES AND OBJECT-ORIENTED PROGRAMMING IN PHP
Blekinge Högskola 2014 - 2015

WEB DEVELOPMENT
Halmstad Högskola 2011

ELECTRICAL ENGINEERING/COMPUTER ENGINEERING
Rönnowska 'College 2007 - 2010

EXPERIENCE

MASTER THESIS 2026

Ericsson

- Unity, C#, Python, LLM, AI, Motion Generation, System Integration

BACHELOR THESIS 2024

Axis Communications

- Embedded C, Raspberry Pi, DSP, Audio Processing, Meson, Matlab

SOFTWARE DEVELOPER 2023

HMS Networks AB

- Embedded C, Linux File Systems, Process Monitoring, Git, CMake

WAREHOUSE PERSONNEL 2017 -

Välinge innovation sweden AB

- Logistics, Forklift, Operations

FOUNDER 2016-2019

Mach9Games (My own)

- Java, SQLite, Async, Text Parsing, Plugin Development, Leadership

PROJECTS

CCHAT 2026

- C, Sockets, Client-Server, Async, Linux, Meson

GREEN HOUSE PROJECT 2023

- Embedded C, Sensors, Actuators, Control Systems, Data Logging
